

VosynVerse HK Limited - Cloud Engineering — Master-Level Internship

Company Name: VosynVerse HK Limited

Position: Cloud Engineering — Master-Level Internship

Posting Date: 25 Aug 2026

Job Title	Cloud Engineering — Master-Level Internship
Job Description:	About the Role: We are seeking a skilled and enthusiastic Cloud Engineering Intern, with experience in building, scaling and maintaining cloud Platform Solutions to join our team. This position is ideal for a Master's level student with a keen interest in cloud computing and infrastructure. As a Cloud Intern, you will work with our cloud engineering team to design, deploy, and manage cloud-based solutions that support our business and technical objectives. Key Responsibilities: • Assist in the design and implementation of cloud infrastructure and services. • Work with cloud platforms such as AWS, Azure or Google Cloud Platform to deploy and manage resources. • Monitor and optimize cloud environments for performance, security, and cost-efficiency. • Document cloud architecture and operational procedures. • Stay up-to-date with emerging Cloud, DevOps and MLOps practices.
Requirements:	• Currently enrolled or recently graduated from a Master's program in Computer Science, Cloud Computing, or a related field. Master's program enrollment or completion is mandatory. • Strong understanding of Cloud Computing and DevOps. • Some understanding of MLOps. • Experience with GCP, AWS, or Azure is acceptable. • Experience in Kubernetes orchestration. • Experience in Terraform scripting. • Proficiency in Python scripting. • Strong problem solving and troubleshooting skills. • Able to work in a collaborative environment. • Passionate about working at a startup. • Language: English

Application method: Please send your resume to: mcarter1661@gmail.com
