	Technical Mark	A+B+C=100

- (iii) The maximum total Technical Mark to be scored on assessment of the Technical Proposal is 100. If the Technical Proposal fails to meet the Technical Passing Mark (i.e. 70 out of full marks of 100), the Tenderer will be disqualified. Only if the Technical Mark is equal to or greater than 70, the Tenderer is qualified for calculation of Weighted Technical Score by reference to the formula below.

Formula:

$$\text{Weighted Technical Score} = \frac{\text{Technical Mark of a particular Technical Proposal} \times \text{Technical Weighting}}{\text{Highest Technical Mark amongst all the Technical Proposals}}$$

Example:

There are 4 tenderers, and the assessment of the Technical Mark of the Technical Proposals is carried out according to the established scoring system. With the maximum Technical Mark being 100, the Technical Marks of the 4 tenderers are 90, 80, 70 and 60 respectively. As the Technical Passing Mark is equal to or greater than 70, only three tenderers are qualified. The Weighted Technical Score is calculated based on the above formula, as shown in the following table:

A	90	Qualified	$\frac{90 \times 50}{90}$	50
B	80	Qualified	$\frac{80 \times 50}{90}$	44.44
